Chair’s Comment:

We appreciate the input that our members provided during the online survey earlier this summer. The purpose of this survey was to understand from our members where DPR currently stands with regards to its programs and initiatives and what factors might influence its future. We were very pleased to hear from approximately one third of our membership. Your input was both strategic and operational and will be incorporated into our plans for the future. This assessment was conducted as part of a larger strategic planning effort that occurred prior to and during the Boston National meeting. An updated strategic plan which reflects our new subdivisions infrastructure and updated strategic objectives is expected during the latter part of September. DPR will publish the new plan to the website and with the help of the full Executive Committee will begin implementing it later this fall.

As part of the update of our strategic plan, DPR’s mission was reaffirmed. DPR continues to serve as the home for all ACS members concerned with professional development and to be the advocate for all members of the Society in the area of professionalism. As part of the new plan, DPR’s new objectives will concentrate on the following:

* To provide products and services for the professional development of members of the chemical enterprise, and

* To be recognized as the champion for professional issues for chemical professionals both within and outside the Society.

Strategies for the former objective will focus on evaluating and providing relevant programming, assessing current needs of chemists and chemical professionals, hosting networking events and reinforcing collaborative partnerships. Strategies for the latter objective will focus on raising awareness, influencing Society policies and being an advocate for best practices to integrate members into the profession. DPR’s Executive Committee will finalize the strategic plan, establish metrics, assign leaders and begin implementation in the next few months.

In the aforementioned survey, members rated networking functions and the national meeting Town Hall Forum as the highest programs of interest followed by A) mentoring and volunteer opportunities, and B) national meeting programming. We are evaluating all the feedback and comments we received in the recent survey about the programs and services we offer and are committed to exploring your ideas. Please continue to voice them on our website forums and to our Executive Committee members.

Please consider presenting a poster at a future DPR Town Hall meeting. We would like to extend a sincere thank you to each of the four sets of presenters who
shared posters in Boston. Chris Bannochie, Adam Myers and I presented an update at the Town Hall Forum via a poster “Subdivisions: Creating Diversity Within the Division of Professional Relations.” The poster highlighted how our division demographics have evolved since the early 1990s and described progress with our subdivision implementation. Regarding membership, DPR’s total number of members has been increasing since 2008. Although our total number of members (794) is still below the high of 2000, the division demographics have changed. In 2006 we had >50% of division membership at 71+ years of age. In 2010, only 26% of division membership is 71+ years of age and 25% is now 35 years of age or younger. Also, women now comprise of 40% of the division membership, while underrepresented racial and ethnic minorities comprise of nearly 15% of the division.

We have a new membership brochure that is also located on our website at http://prof.sites.acs.org/join.htm. Please help us get the word out to prospective members about the value of joining our division and its six subdivisions. DPR is committed to meeting the professional needs of chemists and chemical professionals. If each of us would consider reaching out to 1-2 members imagine the impact on our membership. I encourage everyone to take a few minutes to review the new brochure and to share it with your colleagues. Together we can make a difference in attracting new members to DPR.

Finally, I ask each of you to remember to vote during our upcoming election. What better way to express your voice and to help shape the future of our division than to vote in this year’s election. In addition to electing candidates, this year’s ballot also includes bylaw revisions. Earlier this year DPR’s Executive Committee proposed changes to the bylaws. With input from the ACS Committee on Constitution and Bylaws, the DPR Executive Committee has issued the bylaw revisions that are incorporated in this issue. Please review them and let us know if you have any questions. The basis for the proposed bylaw changes is to allow the division to evolve to an organizational structure that accommodates our new subdivision framework. The proposal also allows for modification of our election procedures to clarify how electronic balloting will be applied to the division and incorporates recommended changes from the ACS Committee on Constitution and Bylaws regarding recall of elected officials.

Thank you for helping to make my year as Chair of the division a wonderful experience. I am pleased with the energy and enthusiasm of our Executive Committee, Subdivision Chairs and members towards advancing professionalism and professional development. DPR’s strong focus in this area continues to draw new members and raise awareness of professional issues within the Society.

Best Regards, John

Correction- New Dues Structure
Pete Smith

As indicated in the previous newsletter issue, DPR has established a modified dues structure to offset the administrative costs of the subdivision activities. Dues for membership in the DPR remains $10 per year. Unfortunately the current ACS dues system does not allow for the free subdivision option. Therefore, your dues will increase $2 for each subdivision membership you join. Please take advantage of these new opportunities for professional development!

Subdivision News

Barbara Belmont

The Gay and Transgender Chemists and Allies Subdivision is now official! That is, you may join this subdivision at any time, or when you renew your annual ACS dues. We are subdivision M27. For people on the calendar year renewal cycle, your renewal forms may have been printed before this subdivision was an option. If so, just hand-write the subdivision on your renewal form and include an extra $2 with your dues payment. Or easily renew on-line! Don’t want to wait for your ACS dues renewal? Download the new Division of Professional Relations brochure, found at http://prof.sites.acs.org/lgbtandallies.htm, and mail the completed form to the division treasurer. Councilors’ Report
Boston National Meeting, August 21-26, 2010
John Massingill and John Borchardt

As of August 24, 2010, 14,059 registrants had attended the ACS fall national meeting. This included Regular attendees 8,211; Students 3,230; Guests 393; Exhibit Only 733; and Exhibitors 1,492.

The job market appears to be slowly getting better. Sixty-eight companies recruited new employees for 484 jobs at the ACS Career Fair. There were 1066 job hunters registered to use the Career Fair services. While there were about the same number of job hunters as at last March’s ACS national meeting in San Francisco there was a 50% increase in the number of companies recruiting and the number of jobs available.

The ACS Council approved a change to the ACS Bylaws that will permit local sections and divisions to use electronic ballots in their elections.

The number of members in the new Student Member category has approximately doubled to 12,815 as of July 31, 2010.

Council elected Janet L. Bryant, H. N. Cheng, Amber S. Hinkle, V. Michael Mautino, and Yorke E. Rhodes to serve on the Committee on Committees, and John E. Adams, Alan M. Ehrlich, Mary Virginia Orna, and Dorothy J. Phillips to the Council Policy Committee. Jeannette E. Brown, Martha L. Casey, D. Richard Cobb, Lissa Dulany, and Angela K. Wilson were elected to the Committee on Nominations and Elections.

Candidates for the fall election for President-Elect are Luis A. Echegoyen, Professor, University of Texas at El Paso and Bassam Z. Shakhashiri, Professor, University of Wisconsin.
The North Central Oklahoma Local Section will be incorporated into the Northeast Oklahoma Local Section, and the Norwich Local Section into the Binghamton Local Section.

The Council discussed moving the Council session to Tuesday, rather than Wednesday, and set the advance registration fee for 2011 national meetings at $355.

**Candidate’s Statement**

Here we go again!— As some of you may remember, I ran for this office last year, with the election ending in a tie which was resolved by the executive committee. I won’t bore you again with my bona-fides; sufficient to say that I was involved with the inception of PROF and have stayed involved over the years.

As I have previously pointed out, PROF has a different focus and agenda than most of the rest of the ACS; they are concerned with the success and advancement of chemistry and some of the peripheral issues such as funding and dissemination of chemistry. PROF, however, tries to look at issues that impact the lives of our members—what can the ACS do to enhance the well-being of those individuals who call themselves chemists. I’m sure a number of our members are aware that 2011 is the “Year of Chemistry” and the ACS has certainly assumed a leadership role in planning activities for 2011 - both here and internationally. This is all to the good in focusing public attention on the contributions chemistry, and chemists, make to the well-being of great numbers of people, many of whom are not aware or who do not appreciate how much chemistry has contributed to their lives. It certainly is an opportunity to garner some favorable PR and offset some of the negative publicity that the media seem to dwell on.

Having acknowledged all this however, I am even more concerned that last year about the future of support for chemistry in the United States. We are seeing increased competition for the production of intellectual property not only in the traditional areas of Europe, but also the startlingly rapid growth in India and China. Jobs we never thought would be outsourced to off-shore facilities are indeed being lost to the US. We have seen this happen in certain manufacturing areas, but now it also is happening to science and engineering technology.

The ACS has had a past history of initiatives to try to address these changes. However, it has become fashionable for each new president to announce their “theme” for their upcoming year, during which ACS staff and infrastructure focuses on these goals until the next president comes along, which results in a lack of continuity to accomplish long-term objectives. Our strategic plan has so many strategies that it is hard to focus on any one successfully. I believe it should be PROF’s mission to act as a catalyst to organize an effort within ACS (perhaps a five year plan) to maintain focus on one topic of extreme importance to our members— the support within the US for chemistry funding and research and the JOBS that go along with it. If you agree with such an approach, I
ask for your support in establishing PROF as that catalyst. Thank you!

Section 2. The recall of an official shall be initiated when a signed petition, indicating in writing the specific charges and reasonable substantiating evidence is submitted to the Chair from at least five voting members of the Section. In the event the Chair is the official in question, the Chair-Elect shall receive the petition and shall assume the duties of the Office of Chair with respect to this issue until the issue is resolved.

Section 3. The Chair shall, without delay, determine that the petitioners are aware of the gravity of their actions and the procedures to be followed. The Chair shall seek an alternate resolution to the problem and a withdrawal of the petition at this time. In the absence of a resolution to the problem, the Chair shall present the issue to the Executive Committee as a new business item at the next Executive Committee meeting.

a. The Executive Committee shall promptly continue the recall process or dismiss the petition as ill-founded or find an alternative solution to the problem. The Chair shall promptly inform the petitioners and the official of the decision of the Executive Committee.

b. If the proceedings continue, the Chair shall assign the duties of the official to another qualified member of the Section until the issue is resolved.

c. If the proceedings continue, the official shall be offered an opportunity to answer the allegations in the petition before the Executive Committee.

Every reasonable effort shall be made to contact the official throughout this procedure. That effort shall include a certified letter to the last known address on the official SOCIETY membership rolls. Upon notification, the official shall have thirty days to make a written response to the allegations. The Executive Committee shall decide whether to proceed after studying the official’s response. The Chair shall inform the official and the petitioners of the decision of the Executive Committee.

If no contact with the official can be made after a reasonable effort, the Executive Committee may remove the official in question with a two-thirds vote of the remaining members.

d. If the proceedings continue, the official shall choose one of the following options:

(1) The official may resign.
(2) The official may request a recall vote in the same manner as the original election, which must be consistent with the Section bylaws. The voting membership shall be informed, through brief written statements prepared by the Executive Committee and the official, of the issues involved with the recall vote. Both statements shall be distributed to the voting membership before the vote is taken.

(3) The official may request a hearing and a recall vote by the remaining members of the Executive Committee. A two-thirds vote of the remaining members of the Executive Committee shall be required to recall the official.

(4) The official may choose not to respond and thus forfeit the position.
